

# Use of Single Lumen PICCs in Non-ICU Cases

## PICC Single Lumen Usage

### Goal

- Increase the number of single lumen PICCs and reduce multi- lumen devices

### Interventions Implemented

- Changed EHR workflow to allow providers an opportunity to order the number of lumens and made the number of lumens a mandatory field when ordering PICC placement
- Educated hospitalists on encouraging single lumen use with ongoing monthly discussions at Hospitalist meetings
- Leadership and medical director support for single lumen PICC use
- Educated IR and Floor RNs regarding single lumen PICC use
- Encouraged culture change

**Before:** Peripheral lines were removed when a PICC was placed

**After:** Leave peripheral line (if still working) while the PICC is in place
