

# Use of Single Lumen PICCs in Non-ICU Cases

## PICC Single Lumen Usage

### Goal

- Increase the number of single lumen PICCs and reduce multi-lumen devices

### Interventions Implemented

- Chose to develop a Clinical Nurse Specialist (CNS) led Vascular Access Specialist team to drive the outcomes based on EBP.
- Provide ongoing education with nursing and provider staff using:
  - VAST screens all PICC orders – determines appropriate type of line/lumens.
  - VAST rounds daily to assess for line needs, line necessity
  - CNS consults as needed for questions – interdisciplinary
  - Staff: Providers and RNs receive annual education on best practice.
  - CNS provides new RN/new employee education bi-monthly.
  - VAST newsletter to all units monthly.
  - Policy integrates INS standards and MAGIC guidelines.
